Summer of Code

# Google Summer of Code

## What is open source?

- Computer software where the source code is distributed under an open source license that allows anyone to study, change, improve and distribute the software.
- Promotes collaboration
- Community of dedicated developers

# Google Summer of Code

## What is GSoC?

Google Summer of Code (GSoC) is an online, international program designed to encourage university student participation in open source software development.

# Google Summer of Code

## About

Students work for an open source software organization, and earn a stipend for successfully completing the project.

University students spend their time outside of school working in a field that can help them with their studies and career *after* university.

# Google Summer of Code

## Goals of the program

- Help organizations continue to identify and bring in new developers each year
- Expose students to real world software development scenarios
- Help students build a strong network when applying for jobs

# Google Summer of Code

## How does GSoC work?

- Open source software projects apply to be mentor organizations
- Google chooses the organizations to participate (201 in 2017)
- Students submit project proposals to mentor organizations

# Google Summer of Code

## How does GSoC work?

- Mentor organizations choose the students they'd like to accept
- Students are paired with a mentor to help them throughout their project
- Coding begins! Students work towards milestones laid out in their project proposal with their mentor over 12 weeks

# Google Summer of Code

## Evaluations

- Students must pass three evaluations
- Students who pass each evaluation are paid a stipend for their work
- At the conclusion of GSoC, students submit the code they've written for their project for everyone to see and use!

# Google Summer of Code

## Eligibility

- Over 18 upon registration
- Accepted into or enrolled in a university program by the student acceptance date
- Eligible to work in the country in which you reside
- Have participated in no more than 1 previous GSoC

# Google Summer of Code

## Statistics

- In 13 years over 13,000 students from 107 countries have been accepted into GSoC
- Countries with the most students:
  - India (2,831), United States (2328), and Germany (772)
- Approximately 32+ million lines of code have been produced

## 2018 Program Timeline

- **Jan 4:** Organization applications open
- **March 12-27:** Students submit their proposals
- **April 23:** Accepted students are announced
- **April 23-May 14:** Community bonding period with orgs
- **May 14-Aug 14:** Students code the summer away
- **August 22:** Successful student projects are announced
