

# 2019 Season of Docs

Run by Google

Fostering open source collaboration with technical writers

Visit <https://g.co/seasonofdocs>

Documentation is essential to the adoption of open source projects as well as to the success of their communities. Season of Docs brings technical writers and open source projects together to foster collaboration and improve documentation in the open source space.

During the program, technical writers work closely with an open source community. They bring their technical writing expertise to the project's documentation and learn about the open source project and new technologies.

Want to join in? Technical writers around the world can apply to take part in Season of Docs! Visit the website at <https://g.co/seasonofdocs>.

## Timeline
